

# RIDGID® - WD1450

## 14 Gallon Wet/Dry Vac

This RIDGID® 14 gallon High Performance Wet/Dry Vac is designed to deliver the powerful suction, large capacity, and rugged construction in a more compact design than is offered in our largest cart type vacs. The 14 gallon drum size helps us achieve a more compact overall design but it still provides a big capacity capable of handling large job-site chores. The 6.0 peak HP motor delivers the high performance necessary to handle these chores. Other key features include; a 3-layer fine dust filter captures dry wall dust, accessories are stored on-board, casters provide 360° mobility. Add a top handle with a cord wrap, heavy duty 2-piece drum construction, a large drain and you've got a wet/dry vac that achieves the demands of Pro's on the job site.

FEATURES	BENEFITS
• 6.0 Peak Hp Motor	Provides industry leading power and performance.
• Sound Reduction Technology	Scroll Noise Reduction® is a patented feature that provides quiet operation by precisely controlling the flow of air through the vac.
• 4 Swivel Casters	Provide easy 360 degree mobility
• Quick Release Accessory Storage Bag	Keeps accessories close at hand. Depress spring loaded ball to quickly remove accessory storage bag.
• 2-Piece Drum Construction	Makes emptying debris from drum quick and easy
• 3-layer Fine Dust Filter	Provides improved, more rugged construction to meet the higher demands found on the job site.
• Tug-A-Long® Locking Hose	Captures fine dust particles such as dry wall dust.
• Large Carry Handle	Positively locks 7-foot hose to the vac. Hose won't pull loose during use.
• Long Cord plus Cord Storage	Allows easy lifting of vac into service vehicle.
• Powerful Blowing Performance	Extra long 20' power cord wraps neatly around carry handle.
• Included Accessories	Move hose to exhaust port to blow debris from garages, decks, sidewalks, etc.
	2-1/2" x 7' Tug-A-Long® Locking Hose, 2 Extension Wands, Utility Nozzle, Car Nozzle, Wet Nozzle, & a 3-Layer Fine Dust Filter
