Dear Customer,

Subject: REACH compliance statement for Ridge Tool Company products

This document is Ridge Tool Company statement regarding EC Regulation 1907/2006, also known as REACH (Registration, Evaluation, Authorization and Restriction of Chemicals).

**Article 33 “Duty to Communicate information on substances in Articles”**

1. Any article supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.10% weight by weight shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of the substance.
2. On request by a consumer, any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.10% weight by weight shall provide the consumer with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of the substance.

**Ridge Tool Company Response:** The products listed in the annex contain the following substances listed on the “Candidate List of substances of very high concern” dated June 27, 2018.

<b>Substance</b>	<b>CADMIUM OXIDE</b>
<b>CAS #</b>	<b>1306-19-0</b>
<b>EC #</b>	215-146-2
<b>Classification and SVHC Properties</b>	According to the harmonised classification and labelling (CLP00) approved by the European Union, this substance is fatal if inhaled, may cause cancer, causes damage to organs through prolonged or repeated exposure, is very toxic to aquatic life, is very toxic to aquatic life with long lasting effects, is suspected of causing genetic defects and is suspected of damaging fertility and the unborn child.
<b>Information on safe handling including safe disposal if relevant</b>	Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Further processing of solid materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed. Conditions for safe storage, including any incompatibilities Keep container tightly closed in a dry and well-ventilated place. Handle under nitrogen, protect from moisture. Keep in a dry place.
