Dear Customer,

Subject: REACH compliance statement for Ridge Tool Company products

This document is Ridge Tool Company statement regarding EC Regulation 1907/2006, also known as REACH (Registration, Evaluation, Authorization and Restriction of Chemicals).

**Article 33 “Duty to Communicate information on substances in Articles”**

1. Any article supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.10% weight by weight shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of the substance.
2. On request by a consumer, any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.10% weight by weight shall provide the consumer with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of the substance.

**Ridge Tool Company Response:** The products listed in the annex contain the following substances listed on the “Candidate List of substances of very high concern” dated June 27, 2018.

<b>Substance</b>	<b>DIBORON TRIOXIDE</b>
<b>CAS #</b>	<b>1303-86-2</b>
<b>EC #</b>	215-125-8
<b>Classification and SVHC Properties</b>	The substance is proposed to be identified as substance meeting the criteria of Article 57 (c) of Regulation (EC) 1907/2006 (REACH) owing to its classification as toxic for reproduction category 1B1 which corresponds to classification as toxic for reproduction category 22.
<b>Information on safe handling including safe disposal if relevant</b>	Personal Protective Equipment (PPE) <b>Handling:</b> Inhalation is the most significant route of exposure in occupational and other settings. Dermal exposure is not usually a concern because product is poorly absorbed through intact skin. Product is not intended for ingestion. <b>Storage:</b> Good housekeeping procedures should be followed to minimize dust generation and accumulation. Avoid spills. Do not eat, drink and smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.
